## St. Anthony of Padua

St. Anthony of Padua is a Portuguese Catholic Saint born in 1195. Born in a very rich family of nobility wanted to be a popular man, in the eyes of the world. Hence, his family arranged sound education for him at the local Cathedral school. But God's wish was different. Against the wish of his family Anthony entered the Augustinian Abbey of St. Vincent on the outskirt of Lisbon. Being attracted to the simple Gospel lifestyle of the Franciscan Friars, Anthony came in contact with Franciscans in 1219. In the Franciscan order, he became a popular preacher of the Gospel. At the Papal court, his preaching was hailed as "Jewel case of the Bible". Saint Anthony died on 13 June 1231 at the age of 36. When he passed away, it is said that the children cried in the streets and that all the bells of the churches rang of their own accord, rung by angels come to earth to honor the death of the Saint. He is known to have become the quickest saint in the history of the Catholic Church. St. Anthony of Padua is also known as 'Miracle Worker'. People plead for his intercession in times of difficulty. May St. Anthony intercede for us and God bless our Institution.
